WHY EARTHSCAPE

- Experienced Engineers
- Latest Technology
- Fast Delivery
- High Accuracy
- International Standards
- Professional Reporting

HOW WE WORK

Our Process

A disciplined, field-tested workflow that carries every project from first call to final deliverable repeatable across desert, urban and offshore sites alike.

01 **Consultation**
We scope objectives, site access and standards with your engineering team.

02 **Site Visit**
A reconnaissance visit confirms ground conditions, hazards and logistics

03 **Survey Planning**
Method, grid spacing and equipment are matched to the geology and brief.

04 **Field Data Collection**
Certified crews capture data using calibrated GPR, GNSS and geophysical systems.

05 **Processing**
Raw datasets are cleaned, filtered and processed in specialist software

06 **Analysis**
Geophysicists interpret results against project-specific engineering criteria

07 **Reporting**
Clear, standards-compliant reports with CAD/GIS deliverables are issued

08 **Client Support**
Our team remains on call for clarifications, revisits and follow-up work.

ABOUT THE COMPANY

Who We Are

EarthScape Technologies is a Saudi Arabiabased geophysical, geotechnical and environmental survey company delivering accurate, reliable subsurface and site investigation data across the Kingdom.

Our team of experienced geophysicists, engineers, surveyors and data analysts combines technical expertise with modern field technology to deliver precise, data-driven insights for the environmental, mining, construction and infrastructure sectors. We offer full-service project management from receipt of a client's design or idea, through data acquisition and analysis, to final delivery and reporting

- Experience
- Innovation
- Accuracy
- Saudi-Wide Coverage
- Professional Team
- Modern Equipment

WHAT WE DO

Our Services

GROUND PENETRATING RADAR (GPR)
Non-invasive 3D imaging to locate buried utilities, voids, rebar and structures

ENVIRONMENTAL STUDIES
EIAs, baseline monitoring and NCEC-compliant environmental assessment

TOPOGRAPHIC SURVEY
GNSS, drone and laser-scan mapping for engineering design and earthworks.

HYDROGRAPHIC SURVEYING
Bathymetric & sub-bottom mapping for coastal and offshore projects

TRIAL PITS & NON-DESTRUCTIVE SURVEYS
Shallow exploratory investigation and structural condition assessment

GEOLOGICAL INVESTIGATION
Soil & rock analysis for bearing capacity, settlement and foundation design.

ELECTRICAL RESISTIVITY TOMOGRAPHY
Resistivity mapping for groundwater, cavities and site characterization

SEISMIC SURVEY & MASW
2D/3D subsurface imaging for energy, geotechnical and hazard projects

REBAR MAPPING & CONCRETE SCANNING
Detect Reinforcement & assess concrete integrity

BOREHOLE LOGGING TECHNOLOGIES
Detailed Subsurface data from borehole logging

TDEM & FDEM SOLUTIONS
Advanced electromagnetic methods for deep subsurface investigations

GRAVITY - REGIONAL & LOCAL STUDIES
Subsurface density variations for geological interpretation

Saudi Aramco E-Reference No. 0016742

Registration Approval Letter

February 03, 2026

Attention : EARTHSCAPE TECHNOLOGIES FOR SURVEY AND GEOLOGICAL EXPLORATION

CR Number : 2051259607
Supplier Type: Service Provider Only
Country : Saudi Arabia

We are pleased to inform you that EARTHSCAPE TECHNOLOGIES FOR SURVEY AND GEOLOGICAL EXPLORATION is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10118447, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8850 for Out-of-Kingdom suppliers.

Abdalhadi Shahath Alshammari, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:
1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (SCOMs and SCATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com
